

AVUZWA MDUNYELWA

Software Developer Intern

068 475 1671 | avuzwamdunyelwa@gmail.com | [GitHub](#) | [LinkedIn](#) | Johannesburg, Gauteng

SUMMARY

Self-taught full-stack developer with a CS50x foundation and hands-on experience shipping and deploying production web applications end-to-end. Comfortable across the stack: relational database design, backend logic in Python/Flask, and interactive frontends in JavaScript. Currently building React skills alongside independent projects. Seeking a Software Developer Internship to apply and grow these skills in a team environment.

TECHNICAL SKILLS

Languages: JavaScript, Python, SQL, C, HTML, CSS

Frameworks & Libraries: Flask, Bootstrap, React (in progress)

Databases & Deployment: PostgreSQL (Supabase), SQLite, Render, Vercel

Tools: Git & GitHub, VS Code, Figma, Chrome DevTools, Bash/Unix

Core Concepts: RESTful APIs, OOP, algorithms & data structures, responsive design, JSON

PROJECTS

100Pages — *Flask, Python, JavaScript, PostgreSQL (Supabase), Spotify API, Bootstrap* | [Live demo](#)

- Built and deployed a full-stack music review platform with 8+ routes, Spotify API integration, and secure authentication (hashed passwords, session management)
- Designed a relational database, migrating from SQLite to Supabase PostgreSQL and writing complex JOIN queries to power stats and a notifications system
- Implemented asynchronous, fetch-based UI updates for real-time interactions; managed all version control with Git (branching, rebasing, merge-conflict resolution)

Dynamic Weather & Visuals Web App — *JavaScript, Bootstrap, Weather API, Pexels API* | [Live demo](#)

- Built a responsive web app that fetches real-time weather data and pairs it with location-specific background imagery
- Orchestrated parallel asynchronous requests to multiple REST APIs, handling and merging JSON responses client-side

EXPERIENCE

IT Support Intern — Internet Café

Jun 2025 – Dec 2025

- Diagnosed and resolved 100% of hardware, software, and connectivity issues within shift hours, with zero unresolved escalations
- Reduced average device downtime by proactively maintaining Windows PCs, printers, and peripherals across the floor

EDUCATION

- CS50x: Introduction to Computer Science — HarvardX (Online) — 2025–2026
- Introduction to Frontend Development — Meta via Coursera — 2026
- React Development — In Progress — 2026
- Introduction to Coding — SheCodes — 2025
- Bachelor of Arts, Psychology — University of Fort Hare — 2020–2023
